

D1, 4 Biodiversity – birds

Existing Programmes

If you have already reported this programme under one of your other (sub)regions, you can refer to this programme by adding the Programme ID code for the first (sub)region here. And then add the relevant MarineUnits where the programme applies within this Region/Sub region.

Provide a unique identifier for a programme already reported under another Region/Sub region

List all the MarineUnitIDs where the monitoring programme applies within the Region/Sub region

,

Existing Sub Programmes

If you have referenced a monitoring programme then please indicate if the same sub programme(s) are implemented within this region/sub region with 'Y'. If additional sub programme(s) are relevant for this region/sub region then report the SubProgrammeID under reference Sub Programme. If the list of sub programmes are not identical with the referenced monitoring programme then report all the relevant sub programmes for the monitoring programme within this region/sub region.

Reference Sub Programme

Each sub-programme ID for each (sub)region/Member State must be unique.

Provide a unique identifier for a sub programme.	Sub programme name
ANSDE_Sub_104	Mobile species - abundance and/or biomass
ANSDE_Sub_110	Mobile species - population characteristics

4e: Programme ID

Provide a unique identifier for programme. Use sub(region) and MS code (e.g. BALDE) plus MS-defined alpha-numeric code (e.g. MADIT-D08)

ANSDE_Mon_001

List all the MarineUnitIDs within this (sub)region where the monitoring programme applies

DE_ANS,

4f: Programme description

Describe the overall approaches of the monitoring programme, including: · The rationale for your balance between monitoring of state/impact, pressures, activities and measures? · How it adapts to new and emerging environmental problems (pressures and impacts) in relation to the relevant Descriptor(s). Free text or URL web link or section in paper report

Das Monitoring der Biodiversität von Vögeln erfasst im wesentlich Abundanz, Verteilung und weitere ausgewählte biologische Parameter von Vogelarten. Das Monitoring überwacht somit hauptsächlich Zustände von Vogelpopulationen und -gemeinschaften. Erfasst und bewertet werden See- und Küstenvögel, insbesondere Zielarten der Meeres- und Küstenschutzgebiete und typische Vogelarten der relevanten Lebensraumtypen nach FFH-RL, darüber hinaus alle weiteren Arten des Anhang I VRL und regelmäßig auftretende Zugvogelarten gemäß Artikel 4.2 VRL sowie durch Konventionen bestimmte Arten im Meeresbereich. Weitere Details unter: <http://fino.bsh.de/blmpweb/kennblatt?id=8&kapitel=0&html=on>

5a: Relevant GES criteria

Which GES criteria are addressed by the programme?

Select all relevant from list: GES criteria

- 1.1: Species distribution
- 1.2: Population size
- 1.3: Population condition
- 1.4: Habitat distribution

Description of Other (if selected):

5b: Relevant GES characteristics [indicators]

Which GES characteristics (indicators) are addressed by the programme?

Select all relevant from list: GES Indicators

- 1.1.1: Distributional range
- 1.1.2: Distributional pattern within range

1.2.1: Population abundance and/or biomass 1.3.1: Population demographic characteristics
(e.g. Body size or age class structure)Description of Other (if selected):
5c: Relevant features, pressures and impacts from MSFD Annex III**Habitats**

Relevant features, pressures and impacts from MSFD Annex III

Select all relevant habitat elements (from MS Art. 8 report - features present)

- Seabed habitats: Littoral rock and biogenic reef
- Seabed habitats: Littoral sediment
- Seabed habitats: Shallow sublittoral rock and biogenic reef
- Seabed habitats: Shallow sublittoral sand
- Seabed habitats: Shallow sublittoral mud
- Seabed habitats: Shallow sublittoral mixed sediment

Description of Other (if selected):
Habitat Specials

Relevant features, pressures and impacts from MSFD Annex III

Select all relevant species elements (from MS Art. 8 report - features present)

- Species group: Birds
- Functional group: Intertidal benthic-feeding birds
- Functional group: Inshore surface-feeding birds
- Functional group: Inshore pelagic-feeding birds
- Functional group: Inshorer benthic-feeding birds
- Functional group: Inshore herbivorous-feeding birds
- Functional group: Offshore surface-feeding birds
- Functional group: Offshore pelagic-feeding birds
- Birds Directive Wild Bird Species

Description of Other (if selected):
Physical/Chemical Features

Relevant features, pressures and impacts from MSFD Annex III

Select all relevant physical/chemical elements (from MS Art. 8 report - features present)
Description of Other (if selected):
Pressures

Relevant features, pressures and impacts from MSFD Annex III

Select all relevant pressure elements (from MS Art. 8 report - features present)
Description of Other (if selected):
5d: Adequacy: for assessment of GES (Art. 8 & 9) - Adequate data: Yes or No?Will the programme provide adequate data and information to enable the periodic assessment of environmental status, and distance from and progress towards GES, including whether environmental status is improving, stable or deteriorating? Yes or no? **Yes**Established methods for assessment: Yes or no? **No**Adequate understanding of GES: Yes or no? **Yes**Adequate capacity to perform assessments: Yes or no? **No**

5e: Natural variability

How does the programme address natural variability?

- In a quantitative process
 Expert opinion
 In a qualitative process
 Other

Description of Other (if selected):

5f: Description GES - Add to end of current guidance: Free text or URL web link or section in paper report.

Describe how the programme: a. addresses assessment needs for the relevant Descriptor(s) and targets b. meets the needs of providing data/ information to support assessment of the Descriptor (or particular biodiversity component programme for D1, 4, 6) c. contributes to determining distance from GES and trends in status d. addresses natural and climatic variability and distinguish this from the effects of anthropogenic pressures e. responds to risks of not achieving GES

Im Rahmen des Monitorings werden alle anwesenden Vogelarten erfasst, so dass sowohl für jede einzelne Art Auswertungen (Abundanzen, Phänologien, Trends) als auch für funktionelle Gruppen vorgenommen werden können, so dass Statusänderungen auf Art- und Artengruppenebene, Auswirkungen von (neuen) Belastungen und Maßnahmen aufgezeigt und gegenüber natürlichen Schwankungen abgegrenzt werden können. Damit sind auch Rückschlüsse auf Habitatebene möglich. Derzeit sind Methoden zur Berechnung und Bewertung der Indikatoren noch in nationaler und internationaler Abstimmung, die notwendigen Daten stehen durch die bereits langjährig bestehenden Messprogramme als Zeitreihen zur Verfügung. Es muss jedoch auf nationaler und internationaler Ebene (OSPAR(TWSC) eine Abstimmung über das Vorgehen zur Bewertung erreicht werden.

5g: Gap-filling date GES

If not yet considered adequate for data and information needs, when will the programme be considered fully adequate? Select one from enumeration list

- By 2014
 By 2018
 By 2020
 After 2020

5h: Plans GES

If the programme is not yet considered fully adequate, what plans are in place to make it adequate (e.g. to fill gaps in data, methods, understanding or capacity)? Free text or URL web link or section in paper report

Zur Entwicklung von Bewertungsprozeduren ist ein Gemeinschaftsprojekt initiiert worden, das unter Federführung von OSPAR ein gemeinsames Tool für die TWSC, OSPAR Region II und MSRL (Nordsee) erstellt. Weitere Methoden zur Berechnung und Bewertung der Indikatoren sind derzeit noch in nationaler und internationaler Abstimmung. Nationale Vorhaben mit MSRL-Bezug insbesondere zu Bewertungsfragen sind gestartet.

6a: Relevant targets (from Art. 10)

Which targets are addressed by your programme (Art. 10)?

- UZN3

Select relevant associated indicator targets (from the MS report on Art. 10)

- UZN3_IND_3.1.1
 UZN3_IND_3.1.2
 UZN3_IND_3.2.3

Add relevant targets (from the MS report on Art. 10)

6b: Adequacy: for assessment of progress with targets (Art. 10)

Will the programme provide suitable and sufficient data and information to enable assessment of progress towards achievement of the relevant environmental targets (using indicators identified by MS under Art. 10) Suitable and sufficient data: Yes or no? **Yes**

Established methods for assessment: Yes or no? **No**Adequate capacity to perform assessments: Yes or no? **No****6c: Target updating**

Suitable and sufficient data: Yes or no?

6d: Description Targets

Explain how the programme will contribute to the assessment of progress with targets. Free text or URL web link or section in paper report

Durch die Erfassung der Vogelarten und die spezifische Zuordnung in funktionelle Gruppen wird das Monitoringprogramm eine Bewertung der Vogelgemeinschaften erlauben und damit zur Bewertung von Habitaten beitragen, was die Beurteilung der Erreichung der entsprechenden deutschen Umweltzielen ermöglicht.

6e: Gap-filling date targets

If not yet considered adequate for data and information needs, when will the programme be considered fully adequate? Select one from enumeration list

By 2014 By 2018 By 2020 After 2020

6f: Plans Targets - (e.g. to fill gaps in data, methods or capacity)?

If the programme is not yet considered fully adequate, what plans are in place to make it adequate (e.g. to fill gaps in data, methods, understanding or capacity)? Free text or URL web link or section in paper report

Das Monitoringprogramm kann eine vollständige Einschätzung zur Erreichung der Umweltziele erst dann liefern, wenn die nationalen, operativen Umweltziele entsprechend konkretisiert und quantifiziert und passende Indikatoren entwickelt wurden und anwendbar sind. Im Zusammenhang mit der Erstellung der Maßnahmenprogramme nach Art. 13 MSRL wird eine solche Konkretisierung und Quantifizierung der Umweltziele nach Art. 10 MSRL vorgenommen. Dieser Prozess wird noch bis 2018 andauern. Einige der deutschen Umweltziele setzen eine genaue Vorstellung von Zielzuständen voraus, die bisher noch nicht genauer spezifiziert sind. Eine nationale Abstimmung dieser Lücken wird durch die Fortschritte in den internationalen Konventionen (TWSC/OSPAR) erleichtert und bis 2018 erfolgen.

7a: Link to relevant activities

Which activities will the programme address?

Description of Other (if selected):

7b: Description Activities

Describe the nature of activity and/or pressure monitoring (e.g. addressing spatial distribution, intensity and/or frequency) and how the programme is considered adequate to assess which activities and/or pressures are causing environmental change (degradation) and hence identification of possible measures, if needed. Free text or URL web link or section in paper report

7c: Relevant measures

Which existing measures will the programme address?

,

7d: Description Measures

Describe the nature of monitoring of measures and how the programme enables their effectiveness (impact) in relation to delivering desired changes in environmental status to be assessed (e.g. what processes are in place to prove corrective measures are having the desired effect, and how is uncertainty quantified)? Free text or URL web link or section in paper report

Das nationale Maßnahmenprogramm Art. 13 MSRL befindet sich derzeit noch in der Aufstellung. Aussagen, wie das Monitoring eine Effizienzkontrolle der Maßnahmen gewährleistet, können erst nach Festlegung der einzelnen Maßnahmen getroffen werden. Die Fragen 7c bis 7f können somit im ersten Berichtszyklus noch nicht vollständig beantwortet werden. Dies erfolgt im zweiten Berichtszyklus 2018.

7e: Adequacy for assessment of measures (Art. 13)) - Adequate data: Yes or No?

Will the programme provide adequate data and information to enable the identification of activities and/or their pressures that are causing environmental degradation (and consequently suitable measures if needed) and the effectiveness of relevant measures?

Yes or no? **Yes**

Established methods for assessment: Yes or no?

Adequate understanding of GES: Yes or no? **Yes**

Adequate capacity to perform assessments: Yes or no? **Yes**

Addresses activities/pressures: Yes or no? **Yes**

Addresses effectiveness of measures: Yes or no? **No**

7f: Gap Filling Date Activities Measures

If not yet considered adequate for data and information needs, when will the programme be considered fully adequate?
Select one from enumeration list

By 2014 **By 2018** **By 2020** **After 2020**

8a: Links to existing monitoring programmes

Which monitoring programmes under Community legislation or international agreements contribute to and are compatible with your MSFD programme? Note: specific details are captured at sub-programme level – question 4m)
